Susan Worthington
Campaign Finance Analyst
Federal Election Commission
Washington, DC 20463

Reference: Post-General Report (10/15/20-11/23/20)

Dear Ms. Worthington:

This letter is in response to your request for additional information, dated August 5, 2021.

Items 1 & 2: Your letter indicates that the above referenced report disclosed contributions that appear to exceed the limits set forth in the act.

The Committee is aware of the per election limit set forth in the Act. The Committee makes every effort to accurately track all donor aggregates. However, due to the large volume of contributions received thru online giving, duplicate donors do occur in the database. When the donor incorrectly enters their own information when making an online contribution, it is difficult to match those contributions with prior giving. This data is regularly imported into the Committee campaign finance software and duplicate detection reports are utilized, but the system does not recognize duplicate donors when names and/or portions of addresses do not match.

Below provides information related to each contributor detailed in the request for additional information:
